What is a Lead?

Types of Leads

1. Cold Leads – People who have never interacted with your business before.
2. Warm Leads – Prospects who have engaged with your content but haven't made a decision yet.
3. Hot Leads – Highly interested prospects who are ready to take action.

Why Lead Generation is Important

Chapter 2: Building Your Lead Generation System

1. Defining Your Target Audience

To generate quality leads, you need to understand your ideal prospect. Ask yourself:

- Who are they? (Demographics, interests, pain points)
- Where do they hang out online? (Facebook, Instagram, LinkedIn, YouTube)
- What problems do they have that your business can solve?

2. Creating a Lead Magnet

A lead magnet is a free offer designed to capture contact information in exchange for value. Examples include:

- Use YouTube Shorts to capture quick attention.

LinkedIn
